SAFETY 6 educates participants on common residential and light commercial jobsite hazards. The content provides a concise and easy to follow description of the safety rules governing most construction jobsites. It offers practical injury prevention measures, including resources for developing an effective safety and health program plus information on products that can make the jobsite safer and more productive. Safety 6 provides instruction on how to respond to an OSHA inspection. Builders can learn how to protect themselves from OSHA citation and penalties by attending this course. Alabama specific.

Person taking this class must be the license holder or the Designated Qualifying Representative (DQR). This course, Safety 6, has been approved by the State of Alabama Home Builders Licensure Board for (6) hours of continuing education credit.
